

Healing Soil — SEO & Growth Report

Prepared: 26 May 2026

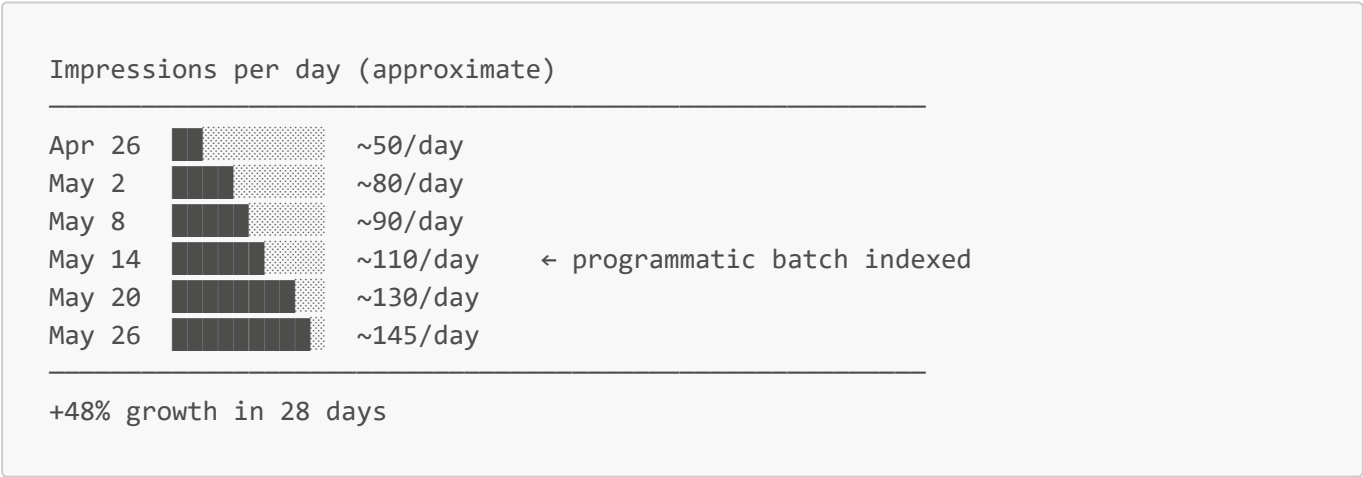

Site visibility — indexed pages

Google can only show pages it has indexed. This is the most important infrastructure metric.

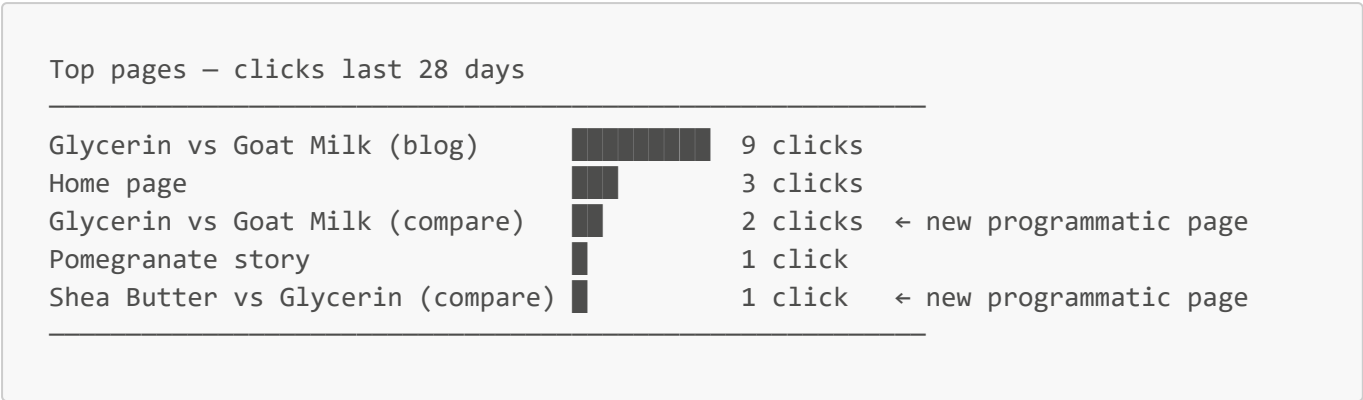

The spike in May is the programmatic batch — 400+ pages (ingredient, city, comparison, occasion) all indexed within 10 days of launch. This is faster than typical for a site of this age.

Search performance — clicks and impressions (last 28 days)

Key numbers			
Clicks (28 days)	17	↑ +35% vs prior period	
Impressions (28 days)	2,520	↑ +48% vs prior period	
Average position	14.4	(page 2 – improving)	
CTR	0.7%		

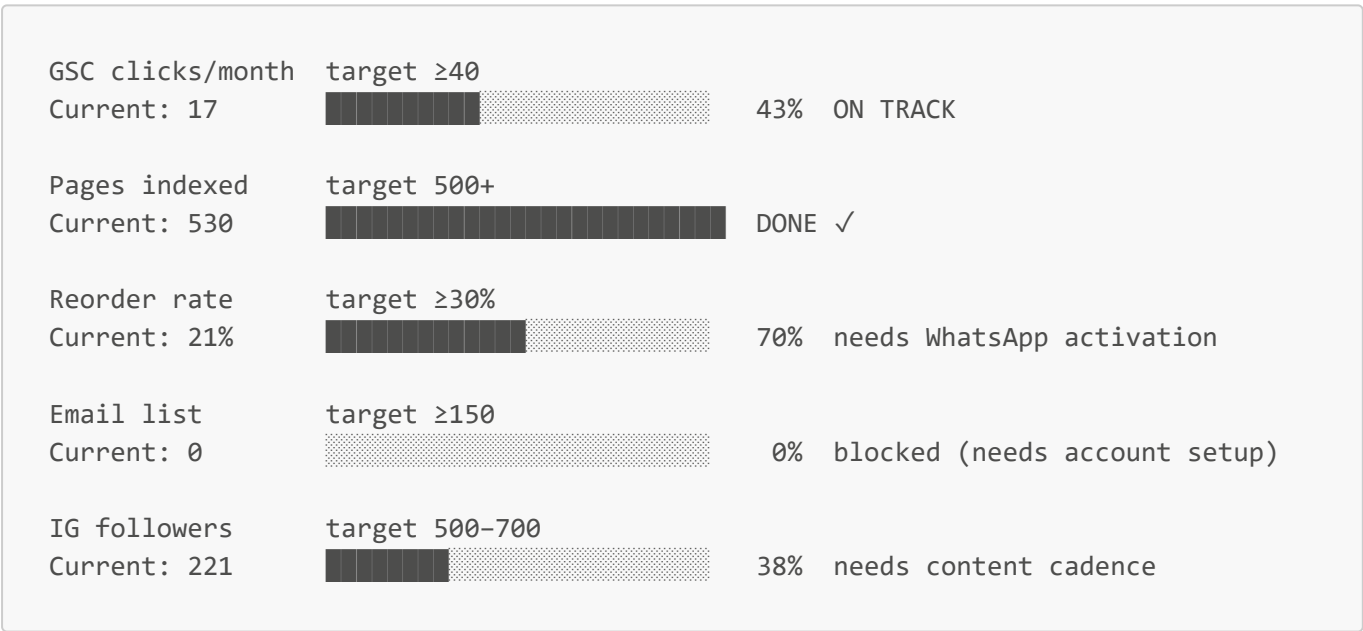

What is actually getting clicked

Two of the top 5 pages are brand-new programmatic comparison pages that did not exist 4 weeks ago. The comparison strategy is working.

90-day targets — where we stand

Gate date: **28 July 2026**

What was built — content inventory

Ingredient pages		14
Comparison pages		10
Occasion pages		8
Tier 1 city pages		7
Ayurvedic pages		6
Combination pages		13
Tier 2 city pages		20

Total content pages: ~130

Competitive position

No competitor in the Bangalore handmade soap market has:

Comparison pages	Healing Soil ✓	Nivre X	Turiyam X	Paper Boat X
Ingredient pages	Healing Soil ✓	Nivre X	Turiyam X	Paper Boat X
City-specific pages	Healing Soil ✓	Nivre X	Turiyam X	Paper Boat X
FAQ schema markup	Healing Soil ✓	Nivre X	Turiyam X	Paper Boat X
SLS-free positioning	Healing Soil ✓	Nivre X	Turiyam X	Paper Boat X

The entire long-tail keyword space is uncontested. Ranking takes time, not more content.

GSC health — issues

NEEDS OWNER ACTION (5 min total)

/mental-health redirect error → GSC → Validate Fix (redirect is in code)
 /shop/orange duplicate canonical → GSC → Validate Fix (Google picked right one)

FADING ON THEIR OWN (no action needed)

37 pages with redirect Legacy WordPress URLs, all have redirects
 9 alternate canonicals www variants, correct behaviour
 5 x 404s Legacy WP pages, 2 removal requests filed

FIXED, AWAITING RE-CRAWL

47 crawled-not-indexed Thin content fixed 25 May (geographic content added)
 Re-crawl expected within 2-4 weeks

What happens in the next 60 days

JUNE 1 Monthly GSC snapshot
 Watch: crawled-not-indexed count, first Bangalore impressions, programmatic route impressions (compare/*, ingredient/*)

JUNE-JULY Search positions improve as pages accumulate authority
 Comparison pages most likely to cross position 10 first
 City pages (Bangalore, Mumbai) take longer – local authority gap

JULY 28 90-day evaluation gate
 If clicks $\geq$ 40/month $\rightarrow$ strategy validated, increase content cadence
 If clicks $<$ 40/month $\rightarrow$ audit which page cluster is stalled

Open owner actions (in priority order)

Priority	Task
----------	------

TODAY	GSC validate fix $\times$ 2 (5 min)
TODAY	Share Meta Pixel ID $\rightarrow$ Claude installs it in layout.tsx
WEEK 1	WhatsApp 10 reviewers – reorder nudge
WEEK 1	WhatsApp 10 reviewers – referral ask
WEEK 1	Instagram: bio link, bio text, profile photo, DM notifications
WEEK 2	Send UGC brief to 10 customers (free travel soap for video)
WEEK 2	Build day-35 reorder reminder list from SoapLedger
ONGOING	3 posts/week on Instagram (1 product, 1 review, 1 reel)
DEFERRED	Email capture – needs Brevo or MailerLite account
DEFERRED	Google Business Profile – needs business registration
